The Strengthening Neighborhoods committee was formed in June to address concerns related to the major shifts that are occurring in the city of Denver. Specifically, the committee is charged with considering opportunities to promote school integration as well as challenges as it relates to declining school aged population in certain parts of the city. We would like to discuss how the DAC members are observing the changes in the city and their impact on schools as well as what DAC members consider to be attributes of a high quality, integrated school. We can also discuss/take questions on some of the preliminary committee thinking available [here](#) from their September Board of Education update.
